

# HARVEST & PRODUCTION CALENDAR

Use this calendar for an overview of our contracting, harvest, and production time frames to assist you with your planning.

**Contract** – Contact your FID sales manager to discuss forecasting, supply, timing, quality certifications, and pricing for your application needs.

**Harvest** – Our growers work around the clock to pick vegetables at the peak of freshness to maintain the highest quality in color, texture and nutritional value.

**Production** – Freshly harvested vegetables are delivered to our Merced, CA plant within days for production. Because products are seasonal, production availability is limited.
